

The **ESSENTIAL OIL CO.** has been importing and distributing quality Essential Oils since 1977. For over 22 years, relationships have been established with distillers, worldwide, and are consistent and dependable. These relationships insure that our oils are never adulterated, or diluted, in any manner. Our oils adhere to standards set down by the USP (U.S. Pharmacopoeia), NF (National Formulary) and BP (British Pharmacopoeia). Our customers can be assured that our oils are the finest available. Aromatherapists can feel confident using our oils in their practice. We also supply Naturopaths, Chiropractors, Medical Doctors, and a wide variety of end users, including food and beverage manufacturers with our products.

Most of our oils are derived by steam distillation of fresh herbal materials, both domestic and imported; including leaves, roots, stems and flowers. Oils should be stored in tightly sealed, amber-colored glass, bottles with very little head space. Exposure to sunlight, excessive heat, or fluorescent lighting will damage the oils.

WHOLESALE ORDERING INFORMATION

CONTACT PHONE # REQUIRED FOR ALL CUSTOMERS

MINIMUM PURCHASE POLICY OF \$50

\$5 SERVICE CHARGE APPLIES TO ORDERS UNDER \$50

E-MAIL, ON- LINE, PHONE OR FAXED ORDERS MUST BE PAID BY CREDIT CARD

E-MAIL / ON-LINE WEBSITE ORDERS

OIL DESCRIPTIONS

Oil of Amyris *Amyris balsamifera* **Haiti**

So called West Indies Sandalwood Oil. Not as nice as Mysore Sandalwood Oil. It is from a different botanical source but employed as a replacement for the Mysore in blending. **Wildcrafted**

Oil of Angelica Root & Seed *Archangelica officinalis* **France**

Both the root and the seed of Angelica are used as a flavoring and as a perfume base note. The oil gives a musk like note to perfumes. Angelica seed is sweeter than the root. **Wildcrafted**

Oil of Anise *Pimpinella anisum* **Spain (USP)**

Warm, pleasant and sweet. Traditional flavoring material. Thought by some to be an aphrodisiac. Digestive aid, heart stimulant. Attracts fish. Oil may crystallize. **Cultivated**

Arnica Absolute *Arnica montana* **France**

Highly concentrated. Can be used diluted in vegetable oil to make an Arnica oil rub for bruises, sprains, and aching muscles.

Listed Under Absolutes.

Atlas Cedarwood *Cedrus atlantica* **Morocco** ✱ **NEW**

Described as a healing and regenerative oil. It is recommended for the lymph system and cellulite. Effective for oily skin and scalp. Not to be used during pregnancy. **Wildcrafted**

Balsam Peru (Genuine) *Myroxylon pereirae* **South America**

Warm vanilla-like fragrance. Very thick, dark brown and slow pouring. At one time, Balsam Peru was used to combat scabies. Excellent **fixative** for perfumes. Must be diluted. Soluble in alcohol and blends well with most Essential Oils. **Wildcrafted**

Balsam Peru Oil *Myroxylon pereirae* **Central & South America**

Similar qualities in fragrance and use to the Genuine, but easier to use. Less effective as a **fixative**. **Wildcrafted**

Oil of Basil (Sweet) *Ocimum basilicum* **Commores**

A welcome addition to some perfumes, even more welcome in sauces of all types. Fantastically fragrant and is said to aid digestion. **Cultivated**

Oil of Bay (Leaf) *Pimento racemosa* **West Indies**

Said to repel insects. Used to flavor foods and alcoholic beverages. Good addition to spice type colognes and perfumes. Soothes itching. **Wildcrafted**

Benzoin Resinoid *Styrax tonkinensis* **Siam**

Distilled from Gum Benzoin. Extremely thick and gooey. Use to replace tincture of benzoin. Excellent **fixative** for perfumery and pot-pourris. **Wildcrafted**

Benzoin Powder *Styrax tonkinensis* **Siam**

Good Fixative for soaps. 1 tsp. per pound. Pure powder. No dilution.

Oil of Bergamot *Citrus bergamia* **Italy**

In very low concentrations this oil is thought to be soothing to skin irritations. Traditional citrus top note in European perfumes and colognes. A flavoring in Earl Grey tea. (**Bergaptene free**) **Cultivated**

Oil of Birch (Sweet) *Betula lenta* **USA**

Distilled from the Sweet or Black Birch tree. As with oil of wintergreen it is rich in Methyl salicylate. At one time it was used in making "Birch Beer". Works great for muscle rubs, and in soaps and candles. It is, also, said to repel insects. **Wildcrafted**

Oil of Black Pepper *Piper nigrum* **Madagascar**

Wonderful addition to men's fragrances. Also used to replace ground pepper by large food manufacturers. Energizing. **Cultivated**

Oil of Black Spruce *Picea mariana* **Canada**

Traditional "Christmas Scent" Used for making soaps, candles, pot-pourris, and scented sachets. Wonderful addition in mens Fragrances. **Wildcrafted**

Calendula Oil *Calendula officinalis* **Europe**

An infused oil, useful for healing, scarring, bruising, diaper rash. **Listed under Vegetable & Infused Oils.**

Oil of Cajeput *Melaleuca leucadendron* (**Native Tea Tree**) **Asia**

Also known as Tea Tree Oil. Used in liniments, decongestant aids, and insect repellent. Powerful germicide. **Wildcrafted**

Oil of Camphor *Cinnamomum camphora* **Japan**

An addition to many fragrant medicines and perfumes. Anti-inflammatory and soothing to the skin. Repels insects, effective for bruises. **Wildcrafted**

Camphor Gum Crystals **China**

Can be added to vegetable oil for making camphorated oils for aches, sprains, and sore muscles.

Oil of Caraway Seed *Carum carvi* **USA**

Digestive aid, mouth watering, the fragrance of a good rye bread.

Cultivated

Oil of Cardamom *Elettaria cardamom* **South & Central America**

Wonderful warm fragrance. Great for blending in perfumes and as a culinary flavor. Appetite stimulant, aphrodisiac. **Cultivated**

Carnation Absolute *Dianthus caryophyllus* **France**

Used by the perfumer for “oriental” and “floral” creations. Excellent fixative. **Listed Under Absolutes.**

Oil of Carrot Seed *Daucus carota* **France**

Steam distilled from the seed. Strong earthy fragrance. Contains carotene. Effective for skin irritations. Said to reduce wrinkles.

Listed under Exotic Oils.

Oil of Catnip *nepeta cateria* **USA**

Iowa state university scientists have found that catnip repels bothersome pest such as mosquitoes and cockroaches. Found to be 10 times more effective than **DEET**. Also known as a folk treatment for fevers, colds, cramps and migraines. **Cultivated**

Oil of Cedarwood *Juniperus virginiana* (**Virginia**) **USA**

Drying when applied to acne eruptions. Pleasant fragrance. Blends well and serves as a good **fixative** in perfumes. Known to repel moths and other insects. **Wildcrafted**

Oil of Cedarwood Himalayan *Cedrus deodora* **India**

Oil from a true cedar. Adds strong pleasant woody notes to perfumes and soaps. **Wildcrafted**

Oil of Celery Seed *Apium graveolens* **USA**

Culinary uses. Traditionally used as a kidney tonic and for fluid retention. **Cultivated**

Oil of Cilantro *Coriandrum sativum* **USA**

Distilled from the leaves of Coriander. Used primarily as a flavoring for Mexican foods. A digestive stimulant, helps flatulence. Effective for oily skin. **Organic** uncertified

Oil of Chamomile Blue *Matricaria chamomilla* **France**

Also know as German chamomile. Contains azulene which gives it the blue color. Anti-inflammatory. **Listed under Exotic Oils.** “Cocoa scent”

Oil of Chamomile Morocco *Ormensis mixta* **Morocco**

Soothes sore muscles. Pleasant in the bath. Said to lighten the hair when added to shampoos and rinses. Relaxing to the body, mind, and spirit. **Cultivated**

Oil of Chamomile Romaine *Anthemis nobilis* **USA**

Also known as Roman chamomile. Sweet, fragrant chamomile, lightens hair, relaxant, calming, soothing, muscle rub. Anti-inflammatory. “Apple scent” **Cultivated**

Oil of Cinnamon Bark *Cinnamomum zeylanicum* **Ceylon**

Used in blending expensive perfumes. Antiseptic and circulatory stimulant. **Wildcrafted**

Oil of Cinnamon (Cassia) *Cinnamomum cassia* **China**

Hot, sweet, exotic. An excellent flavoring. Wonderful in “oriental type” perfumes. Used in dental preparations, and for making cinnamon tooth picks. Used for oily skin and scalp. **Wildcrafted**

Oil of Cinnamon (Leaf) *Cinnamomum zeylanicum* **Ceylon**

Not as sweet as oil of cassia. Flavor is slightly bitter and reminiscent of oil of clove bud. Perfect for making soaps, candles, incense, and scented potpourris. Vermifuge - expels worms. **Wildcrafted**

Oil of Ciste *Cistus ladaniferus* **Portugal**

Base note, blends well, astringent, antiseptic, reduces swelling.

Listed under Exotic Oils.

Oil of Citronella *Cymbopogon nardus* **Ceylon, China, Java**

Commonly used in the soap making market, sometimes in perfumes. Well known for its ability to keep mosquitoes at bay. **Wildcrafted**

Civet Artificial

Civet is an indispensable ingredient in perfumery. Natural civet is an animal product. Although we do not condone the use of animal products in perfumery, we do recognize the importance of this ingredient. In an olfactory sense Civet Artificial is aroma identical to the natural material and easier and kinder to use.

Oil of Clary Sage *Salvia sclarea* **USA**

Soothing, relaxing pleasant addition to most perfumes. A massage with some Clary Sage mixed into your massage oil is said to impart a feeling of euphoria. **Cultivated**

Oil of Clove Bud *Eugenia caryophyllata* **Madagascar**

Traditional toothache application. Sweeter than Clove leaf. Known to repel moths. Great in soaps and potpourris. **Cultivated**

Oil of Clove Leaf *Eugenia caryophyllata* **Madagascar**

Use in candles, soaps, and potpourris. Not as sweet as Clove Bud. **Avoid internal use. Cultivated**

Oil of Coriander *Coriandrum sativum* **USA, Europe**

Oil from Coriander seed. Stimulating. A digestive aid. Helps eliminate flatulence. **Cultivated**

Oil of Costus Root *Aplotaxis lappa*

Stimulant aphrodisiac, insect repellent, and preserves woolens. Used in perfumery. Heavy “oriental type”. Blends well with sandalwood, vetiver, patchouli, rose, and violet. Very strong and tenacious.

Listed under Exotic Oils.

Oil of Cypress *Cupressus sempervirens* **Europe**

Stimulates the circulation. Good addition for perfumes and muscle rubs. **Wildcrafted**

Oil of Davana *Artemesia pallens* **India**

Floral, heavy, a sweet chamomile note. Used in perfumery and religious offerings. **Listed under Exotic Oils.**

Oil of Dill Weed *Anethum graveolens* **USA**

Good flavoring and digestive aid. “A little goes a long way.”

Cultivated

Oil of Elemi *Canarium luzonicum* **Philippines**

Fresh, spicy, woody. It is an expectorant, antiseptic and is used as a base note in perfumes. Great in soap. **Wildcrafted**

Oil of Erigeron *Konyza canadensis* **USA**

Rich in d-limonene. The common name for the herb is Fleabane. Need we say more? **Wildcrafted**

Oil of Eucalyptus *Eucalyptus globulus* **China**

Stimulating to the mind, can “clear the head” when inhaled. Use it to remove tar and various adhesives. Soothes sore muscles, works as an antiseptic, and repels insect pests. **Wildcrafted**

Oil of Eucalyptus Citriodora *Eucalyptus citriodora* **India**

A “citrusy” eucalyptus oil. Nice in perfumes and soaps. **Wildcrafted**

Oil of Fennel (Sweet) *Foeniculum vulgare* **USA**

Can be used in a poultice for bruising. Or in a compress for sore eyes. Used in some insect repellent blends. Said to help milk production for nursing mothers. **Cultivated**

Oil of Fir Needle (Canadian) *Abies canadensis* Canada

Traditional “Christmas scent” in the Northeast. Can be used in the same manner as Siberian Fir Needle Oil. **Wildcrafted**

Oil of Fir Needle (Siberian) *Abies siberiensis* Siberia

Traditional “pine scent”. Used in liniments, as a disinfectant, for making soaps and candles, and for scenting sachets and potpourris. Adds a pleasant “forest “ scent wherever used. **Wildcrafted**

Oil of Galbanum *Ferula galbaniflua* Middle East

A **fixative** in perfume with a spicy base note. Earthy, green. Used topically to treat wounds and boils. Used to treat PMS and has a calming influence. **Listed under Exotic Oils.**

Oil of Garlic *Allium sativum* USA, Mexico

Highly concentrated. Can be used, diluted, as an ear oil ingredient. May be used for combating worms which trouble your pets. Use only small amounts. Makes a good substitute for fresh garlic. **Cultivated**

Oil of Geranium *Pelargonium graveolens* Egypt

Heals wounds, soothes, mild analgesic & sedative. Aids balancing of hormone production. Fresh, sweet, floral very rosy note. Blends well with all citrus and basil. **Do not confuse with Rose Geranium. Cultivated**

Oil of Ginger *Zingiber officinale* China

Distilled from the root. Hot and sweet. Good addition for “oriental type” perfumes. Ginger root has been found to relieve nausea. **Cultivated**

Oil of Grapefruit (pink) *Citrus paradisi* USA

Pressed from the peel of the fruit. Light citrus note. Externally for oily skin. Digestive tonic. May aid in PMS and menopausal hot flashes. **Cultivated**

Honeysuckle Absolute France

The veracity of this absolute has not been established. A wonderful sweet floral note. **Listed Under Absolutes.**

Oil of Helichrysum *Helichrysum spp* Europe

Co-distillation of *H. stoeches* and *H. angustifolia*. Anti-viral, skin regenerating, blends well with Rosehip seed oil for topical application to scars, acne. Apply undiluted to bruise. **Wildcrafted**

Oil of Hyssop *Hyssopus officinalis* Europe

Used in expectorant blends, as an antispasmodic, and a digestive aid. **Use with extreme care. Wildcrafted**

Immortelle Absolute *Helichrysum angustifolia* France

Detoxifying, blood cleansing. **Listed under Absolutes.**

Jasmine Absolute Egyptian *Jasmine officinale* Egypt

A “Superior” Jasmine Absolute. Relaxing and sensual. Adds a touch of mystery to your perfume blend. **Listed under Absolutes.**

Jonquille Absolute *Narcissus jonquilla* France

Used for “French type” perfumes. It will instill heavy overtones within floral and oriental creations. **Listed under Absolutes.**

Oil of Juniper Berry *Juniperus communis* Europe

Antiseptic. The “flavor” of gin. Used for urinary tract problems. Good addition to soaps and muscle rubs. **Wildcrafted**

Oil Western Juniper *Juniperus occidentalis* Oregon

Our own distillation. Distilled at the Warm Springs Indian Reservation from leaves / needles. **Wildcrafted**

Labdanum Absolute *Cistus ladaniferus* Spain

Used in perfumery as an effective replacement for Ambergris. **Wildcrafted**

Oil Laurel Nobilis (Bay laurel) *Laurel nobilis* Turkey

Distilled from fresh leaves in southern Turkey. **Wildcrafted**

Oil of Lavender *lavandula officinalis* France

Soothes burns, eases headaches, sore muscles, herpes, and sinuses. Wonderful in soaps and candles. Superior 40/42 refers to the high ester content which gives lavender fragrance. **Cultivated**

Oil of Oregon Lavender *lavandula angustifolia* Oregon, USA

True Lavender *officinalis* distilled for the Essential Oil Company. **Cultivated**

Oil of Lavandin *lavandula latifolia* France

“Lavender type” fragrance, floral, light, effective replacement for lavender. **Cultivated**

Oil of Lemon *Citrus limonum* USA

May be an irritant if used undiluted. Hardens nails, great for nail soaks and manicures. Excellent flavoring, fragrance for potpourris, sachets, candles and soaps. **Cultivated**

Oil of Lemongrass *Cymbopogon citratus* Guatemala, China

A pleasant deodorizer. Good insect repellent. Digestive aid. Stimulating hair treatment. **Wildcrafted**

Oil of Lime *Citrus aurantifolia* Mexico

Distilled from the peel of the Lime. Uplifting to the spirits. Digestive aid. Excellent room deodorizer. **Cultivated**

Oil of Litsea *Litsea cubeba* Vietnam

Blends well with citrus oils especially lemon. Used as a soap scent. Adds a citrus note coming off the top of your blend. **Wildcrafted**

Oil of Manuka *Leptospermum scoparium* New Zealand

As effective, if not more so, than Australian Tea Tree, with a pleasant “honey like” aroma. **Wildcrafted**

Marigold Absolute *Tagetes glandulifera* or *T. minuta* France

Used in Africa as a fly and vermin repellent. Earthy floral note. **Listed under Absolutes.**

Oil of Marjoram *Origanum majorana* Europe

Soothing and calming aroma. Perfect in a relaxation blend. Sweet fragrance. **Wildcrafted**

Menthol Crystals *Menthol* Brazil, China

A naturally derived menthol from Brazil. Perfect in “liniment type” mixtures. Cool and pleasant smelling. **(From corn mint)**

Oil of Melissa *Melissa officinalis* China

Codistillation of melissa and citronella. Excellent in soaps.

Mimosa Absolute *Acacia dealbata* France

Warm “flower like” fragrance. Said to soothe worries, fears and is an effective skin moisturizer. Soluble in alcohol. **Listed under Absolutes.**

Oil of Mugwort *Artemesia vulgaris* Morocco

Highly aromatic. Use with extreme caution. **Do not take internally.** Consult a reliable Aromatherapy text for proper usage. **Wildcrafted**

Oil of Myrrh *Commiphora myrrha* Africa

Heavy warm base note. A good **fixative**. Soothing to mucus membranes. Employed in anti-wrinkle formulas. The ancient Egyptians used Myrrh, along with other gums and resins, in the process of mummification. **Wildcrafted**

Narcissus Absolute *Narcissus poeticus* France

Blends well with Jasmine. Strong heavy overtones in “French type” perfumes. **Listed Under Absolutes.**

Oil of Neroli (Orange Blossom) *Citrus bigaradia* **France, N. Africa**
Distilled from the blossoms of the Bitter Orange. Wonderful fragrance. Used for relaxation, in perfumery, and as a meditative aid.
Listed under Exotic Oils.

Oil of Niaouli *Melaleuca qui. viridiflora* **Australia**
Herbal sources say this oil is valuable as an antiseptic. Similar to Cajeput. Useful for a variety of infections, both internally and externally.
Wildcrafted

Oil of Nutmeg *Myristica fragrans* **East Indies**
One of the ingredients in Vicks Vapo-Rub. Stimulating. Good flavoring. **Not to be ingested in large quantities. Cultivated**

Oak Moss Absolute *Evernia prunastri* **Morocco and Eastern Europe**
Indispensable to the perfumer. Soluble in alcohol. Having a characteristic "musk-lavender" odor. An excellent **fixative**, blending well with a wide range of materials especially lavender. It will strengthen and improve a lavender soap scent. **Wildcrafted**

Oil of Olibanum (Frankincense) *Boswellia spp.* **Africa**
Distilled from Frankincense gum/resin also know as "tears". The exotic fragrance of the Middle East. Great fixative in perfumery. Has both spiritual and medicinal applications. **Wildcrafted**

Opopanax Absolute "bisabol-myrrh" *Commiphora erythraea* **Africa**
Valuable in perfumes as a base note. Excellent **fixative**. Warm, balsamic exotic, fragrance blends well in oriental types. Harmonizes with myrrh, olibanum, sandalwood, vetiver and patchouli. **Wildcrafted**
Listed under Absolutes.

Oil of Orange (Bitter) *Citrus bigaradia* **West Indies**
Warm "tangerine like" fragrance. Very pleasant in all blends requiring a citrus note. Nice in men's colognes and after-shaves. Used frequently by Naturopathic physicians. **Cultivated**

Oil of Orange (Sweet) *Citrus aurantium* **USA**
Blends well in oriental type fragrances. Soothing in low concentrations. Sweet Orange **may be irritating to the surface of the skin if used undiluted**, as is the case with all citrus oils. Good in soaps, candles, potpourris. Currently being employed as a natural degreaser and hand cleaner. Most citrus oils work well as solvents. **Cultivated**

Oil of Oregano *Origanum vulgare* **Spain**
Stimulating, antiseptic, anti-viral, anti-fungal and a great flavoring. Used by some Naturopaths for cases of Candida. **Wildcrafted**

Oil of Palmarosa *Cymbopogon martinii* **Asia**
Used in cosmetics and soaps. Not related to Egyptian Geranium as commonly thought, but does contain geraniol. Indispensable in perfumes.
Wildcrafted

Oil of Parsley Seed *Petroselinum sativum* **France**
Recommended for kidney, bladder, menstrual and menopausal problems. Used in perfumery. **Cultivated**

Oil of Patchouli *Pogostemon patchouli* **East Indies**
Sweet, earthy, oriental fragrance. Good **fixative** in floral perfumes. Good deodorant. Considered, by some, to be an aphrodisiac. Nice in soaps, candles, and potpourris. **Wildcrafted**

Peppermint (Natural) *Mentha piperita* **USA**
Stimulating to a tired brain. Used for headaches, sore throats, muscle aches, insect bites, toothaches. Sweetens the breath. Perfect to take along on camping trips, or to keep in the medicine chest. Anti-inflammatory.
Cultivated

Oil of Petitgrain *Citrus bigaradia* **North Africa**
Distilled from the leaves of the Bitter Orange. Similar to Neroli. Pleasant addition to perfume blends. Refreshing and uplifting to the spirit.
Cultivated

Pet Perfume
An Essential Oil Co. blend of eucalyptus, sweet orange, citronella and cedarwood to keep pets smelling fresh and pests at bay.

Oil of Pine (White) *Pinus strobus* **USA**
Disinfectant. Good in muscle rubs. Repels insects. Distilled from the needles. **Wildcrafted**

Turkish Rose Oil *Rosa damascena* **Turkey**
A beautiful oil distilled in the Isparta region of Turkey. Comparable to Oil Bulgarian Rose. **Listed Under Exotic Oils.**

Rose Attar (Bulgarian) *Rosa damascena* **Bulgaria**
Distilled from the petals of the Damasc Rose. The Queen of fragrances. Rose is a powerful astringent. Good application for mouth sores. Relaxing. Solidifies in the bottle when the temperature is cold but quickly liquefies when warmed. **Listed under Exotic Oils.**

Oil of Rosewood (Bois de Rose) *Aniba roseodora* **Brazil**
Oil produced from sustainable yield of wild, cultivated trees.
Wildcrafted

Oil of Rosemary *Rosmarinus officinalis* **Morocco**
Used in shampoos, to enhance the color of dark hair, counter split ends, and reduce static charge. Great in massage oils and in the bath. Said to aid memory. **Wildcrafted**

Oil of Rue *Ruta graveolens* **Europe**
Well known as an insect repellent. **Wildcrafted**

Oil of Sage *Salvia officinalis* **Dalmatia**
Stimulating digestive aid, great flavoring. **Wildcrafted**

Oil of Sandalwood E.I. *Santalum album* **India, Indonesia, Mysore**
Wonderful pure East Indian oil. Meditative aid, calming to the mind, and spirit. Said to be an aphrodisiac. Soothing to mucous membranes, helps to clear acne. Blends well, and serves as a **fixative** in most perfumes. **Wildcrafted**

Oil of Spearmint *Mentha spicata* **USA**
Excellent flavoring. Sweet and fragrant. Said to repel insects.
Cultivated

Oil of Spikenard *Nardostachys jatamansi* **Nepal**
Distilled from dried roots of the plant. Member of the Valerian family. Used in perfumery; "oriental types", heavy florals, fougères, woody types, and animal ambre types. Used as a flavoring. **Wildcrafted**

Styrax Resin *Liquidamber styraciflua* **Turkey**
A resin used as a **fixative** in perfumery. **Wildcrafted**

Oil of Tangerine *Citrus palustris* **USA, Brazil**
Use wherever a pleasant citrus scent is required. Said to relax muscles and act as a tonic for the liver. **Cultivated**

Oil of Tagetes *Tagetes spp* **Central America, India**
Oil of marigold flowers. This oil is excellent in perfumery. Green, earthy notes. Used as a fly repellent. **Cultivated**

Oil of Tarragon *Artemesia dracunculus* USA
Flavoring in vinegar, sauces, liqueur and perfumery.
Organic uncertified

Oil of Tea Tree Australia *Melaleuca alternifolia* Australia
An effective antiseptic. Anti-viral, and anti-fungal.
Organic uncertified

Oil of Thuja Cedar leaf *Thuja occidentalis*
Topical application for warts, muscular aches and pains. Anti-viral.
Pleasant scent for deodorizing house. **Wildcrafted**

Oil of Thyme *Thymus vulgaris* Spain
Well known for its germicidal qualities. Good flavoring. Oil may Crystallize. **Use with extreme care and sparingly.** **Wildcrafted**

Tolu Balsam Resin *Myroxylon balsamum* France
Has a soft sweet “hyacinth like” note. An excellent **fixative** soluble in alcohol. Filter out undissolved material for use. **Wildcrafted**

Tuberose Absolute *Polianthes tuberosa* France, India
Great in perfumes. Sensuous, heavy, exotic, floral fragrance with notes of jasmine. **Listed under Absolutes.**

Vanilla Bourbon Absolute *Vanilla planifolia* Madagascar
Sensual, and warm fragrance. Aphrodisiac.
Listed under Absolutes.

Verbena Absolute *Lippia citriodora* Spain
Heavenly, and uplifting, top note. Refreshing, and light, citrus fragrance.
Digestive, stimulant. Skin antiseptic. **Listed under Absolutes.**

Oil of Vetiver *Vetiveria zizanoides* Haiti
Distilled from the roots of the grass. Thought to create harmony in the home. Works well as a **fixative** in perfumery. Very heavy aroma. Use sparingly. **Organic** uncertified

Violet Leaf Absolute *Viola odorata* France
A precious oil. Up to 1400 kg of violet leaves needed to produce 1kg of concrete which in turn will yield about 38% absolute. Employed in high grade “French type” perfumery. This is the leaf not flower absolute, and does not have a traditional violet fragrance. **Listed under Absolutes.**

Mixed Tocopherols (extracted from soy) From Natural Vitamin E
A blend of d-alpha, beta, gamma, and delta tocopherols. Apply to scar tissue. Moisturizing when added to lotions and massage oils. Natural antioxidant. **Listed under Vegetable and Infused Oils.**

Oil of White Sage *Salvia apiana* USA
The Sacred sage of the southwest. **Wildcrafted**

Oil of Wintergreen *Gaultheria procumbens* China
For external use only. Rich in methyl salicylates. Good application for warts and sore muscles. Use in soaps and candles. **Must be diluted.** **Cultivated**

Oil of Wormwood *Artemesia absinthium* USA
“**Not intended for internal use**” Can be used for muscular aches and pains. Used in some perfume blends. **Wildcrafted**

Oil of Ylang Ylang *Canangium odoratum* Madagascar
The Flower of Flowers. Said to abate anger borne of frustration. Wonderful floral bouquet. Relaxes body, mind, and spirit. Anti-depressant, aphrodisiac. **Wildcrafted**

Oil of Yarrow *Achillea millefolium* U.K.
High in azulene. Known to be an anti-inflammatory, antispasmodic, hypotensive, and carminative. **Organic** uncertified

Vanilla Extract *Vanilla planifolia* USA
Extracted from Madagascar and Haitian vanilla beans in alcohol. A pure vanilla extract. Not to be used in soaps because of the alcohol content. **Cultivated**

WILDE & COMPANY FLORASOLS

The Essential Oil Company is pleased to offer Wilde & Company's "Florasols" produced by Dr. Peter Wilde in the United Kingdom. These exquisite oils capture the totality of fragrant materials, yielding a product true to the plants from which they are derived.

The process developed by Dr. Wilde is the most environmentally friendly way of preparing fine, pure natural oils from plants.

Florasols are:

- *entirely free of hexane and other toxic residues
- *approved for use in the European Community
- *extracts no waxes or fats
- *manufactured with out the need of alcohol
- *never exposed to acids

The revolutionary process:

- *emits nothing into the environment
- *does not use toxic solvents
- *is not hazardous
- *requires little energy

All prices are are in US dollars for 2 gram vials.

BASIC SOAP MAKING INSTRUCTION

1) Melt the soap in a double boiler

Cut soap into 1 inch cubes for quick melting. To avoid excess bubbling in your soap, do not stir vigorously. Stir gently periodically during the melting process.

Tip: Keep the double boiler covered to avoid losing moisture from your soap. Glycerine soap generally has a 12-13% moisture content. During the process of melting, moisture will evaporate if the double boiler is not kept covered. Loss of moisture will cause your soap to become flaky or waxy.

2) Add Color

Natural or pigment / dye color nuggets can be melted in to your soap. Approximately half a nugget is suggested per pound depending on preference of color. Food coloring can be added, as well as powders such as turmeric (for a yellow color) or paprika (for a pink color). Approximately 1oz per pound, is recommended.

Tip: When adding powdered colorings, do not mix directly into your soap. Pour a small amount of melted soap into a separate container, add powdered coloring and stir to a "paste like" consistency. Add this colored "paste" back into your melted soap and stir. Colors can be blended to create other colors.

Example: White mixed with Red creates Pink.

3) Add Fragrance

You can add pure essential oils and perfume oils of your choice into your melted soap. Suggested quantity for adding Essential oils or Perfume oils to scent your soap is **one tablespoon per pound of soap**. You can adjust the fragrance, to your taste, by adding either more or less. Add the fragrance to your soap after removing soap from heat and prior to pouring it into molds to avoid fragrance evaporation.

Tip: The color of your fragrance may effect the color of your soap.

4) Other Additives

You can customize your soap by adding other ingredients and moisturizers such as Sweet Almond oil, Vitamin E oil, Aloe Vera, dried herbs, trinkets, ect.

Tip: Additives may effect the color and clarity of your soap. Keep in mind adding to many additions may result in oil puddles on top of soap bars. Approximately 1 tablespoon of additional oil is recommended per pound of soap.

5) Pour Into Molds

Let soap cool slightly before pouring into molds. Hot soap will warp or melt plastic molds. If you have difficulty removing bars from the molds, place the soap filled molds in the freezer for 5 to 10 min. Soap will slightly "pull away" from the sides of the mold for easy removal.

Tip: Cookie cutters, candy molds, tupperware, yogurt containers, tubing and pipe ect. can be used as unique molds for your soap. You can simply use soap molds from **The Essential Oil Company** for your products. To remove air bubbles which naturally form when melted soap is poured, spritz a small amount of isopropyl alcohol on the top of the soap filled molds. Let soap set up for 24 hours or until it hardens completely. Remove soap from molds and wrap immediately with cellophane or shrink wrap to avoid sweat beads from forming on the surface of your soap. Your soap is ready to use and enjoy as soon as it hardens.

SOAP MOLD TRAYS

These soap molds are durable plastic trays containing six identical soap molds.
Ideal for mass producing these popular shapes.

DISTILL YOUR OWN ESSENTIAL OILS

Designed for the Curious, the Novice, the Expert, the Student and the Teacher

The Essential Oil Home Distiller was designed by Robert Seidel, President of The Essential Oil Company. This beautiful all copper distiller (also available in stainless steel) has a one cubic foot capacity (7.5 US Gallons). The table top design makes this unit portable, easy to set up anywhere and simple to use.

The Distiller has three major components: The Retort, the Bird's Beak and the Condenser. The Retort is the container for your plant material. It is equipped with a sight glass for monitoring water levels within. It can be hard-piped for continuous water input, or set up for comminution of the waters. A removable stainless steel "basket" is inside the retort.

The Bird's Beak serves as a lid for the Retort and a conduit for steam. It is equipped with a thermometer and safety valve (set for one pound pressure) and held in place by three sturdy stainless steel wingnuts.

The Condenser is for cooling the steam. Cooling waters can be hard piped or circulated with a portable submersible pump. The product which exits the Condenser is the essential oil and waters (hydrosols).

Basic Unit: \$1,900 US FOB Portland, Oregon

Stainless Steel: \$2,600 US FOB Portland, Oregon

Table Top Separator: \$300.00 US FOB Portland, Oregon
